Family violence outreach workers

Family violence outreach workers are located throughout Victoria to support women who are experiencing or escaping from family violence. They work with women to develop safety plans to enhance the safety of themselves and their children.

Support includes:

- information on options and resources
- referral to other services
- case management support
- counselling and financial counselling.

Referral to local outreach workers is via Safe Steps Family Violence Response Centre (previously the Women’s Domestic Violence Crisis Service).

Refuges and shelters

Many organisations provide safe and secure refuges, shelters, or emergency accommodation for women and children escaping family violence. They assist women with emotional support, legal assistance, help with finding permanent housing and applying for appropriate benefits.

The location of some refuges is kept secret to protect the safety and security of women and children residents. For this reason, referral to refuges and shelters is via Safe Steps Family Violence Response Centre (previously the Women’s Domestic Violence Crisis Service of Victoria).

Other emergency housing

Additional emergency housing is provided independently by various community and church-based organisations. This accommodation varies in the level of support provided, the length of stay allowed, and what is required of residents.
