Disability groups and networks

Summary

- Getting to know other people who have the same disability as you can be a good way to get informal advice and support and to make friends.
- Many national and state-based disability organisations run local support groups and self-advocacy groups.
- You can find out about disability support groups and networks online.

Connecting with other people who have a disability and their families can be a good way of getting informal advice and support. You can get to know other people with disabilities through local support groups, disability organisations or online disability forums.

Disability networks, support organisations and groups for people with disabilities

Contacting an organisation or community group that supports people with your specific disability can be a good way of meeting people, getting advice and sharing experiences.

Many national and state-based disability organisations run regular support group meetings and social activities. Some may also be active on social media and have online discussion forums where you can chat to other people with the same disability. Many also offer support for families.

Self-advocacy groups are run by people with disabilities who have joined together to have their voices heard and support each other. They work together to make sure people with a disability have the same rights, choices, and opportunities as anyone else. Investigating these disability groups online can be a good place start.

Networks and advocacy for people with disabilities

The following organisations provide networks or advocacy for people with disabilities:
